	Viacard			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Loss/thef/defect cause: _____

¹ Damage compensation pursuant to the currently valid tariff list will be charged for OBUs / cards which cannot be returned due to loss or theft.

² The OBUs must be sent back in an undamaged condition. Otherwise, the fees in the currently valid tariff list will be charged.

³ In the case of a reported defect with replacement order, the OBUs reported as defect will be automatically completely disabled after 3 months. The defect device must have been returned / replaced within 30 days in order to avoid further rental charges / damage compensation claims.

UTA will inform the relevant motorway companies as well as other parties concerned (service providers with regard to the possible use of the device or card) about the loss of the device or card and will point out the blocking of the corresponding device/card. However, UTA does not have any influence on the realization of the relevant blocking. Consequently, UTA will not be liable for any illegal transactions which may have been effected by the time of the definite blocking processed by the motorway company or the service provider concerned.

Should you require additional information regarding the blocking of your toll device/s and/or card/s, please feel free to contact the UTA registration department at **+49 (0)6027 509-617** (from Switzerland: +41 – 7 60 95 33).
